WHITAKER LAB MERRYMAKING WITH DR JAMES DANN AND BRIAN WARD - 2/28/24

Curious about the Whitaker Lab? Ever wish you could play there too? Wonder what the first day of Menlo's Applied Science Research (ASR) class is like? Just like students on the first day of class, teams of two will compete to build a motor from scratch using provided materials and instructions. No previous knowledge is required. The team with the fastest RPM (the motor's RPM, that is) will win a select bottle of wine. Participants will also create a party favor with the laser cutter to get a small taste of possibilities in the lab. Light refreshments will be provided.

Location: Whitaker Lab, Menlo School
